IQAC RECOMMENDATIONS:

IQAC submitted the feedback analysis report to the management. Following are some of the recommendations made:

- As per the suggestions, a practical approach beyond classroom teaching should be provided to students in order to foster their orientation towards research based activities.
- There is a need to impart Soft skills training to students so as to enhance their competence in their careers
- Course content in the curriculum has to be revised from time to time
- There must be a good representation of teachers in the design and development of syllabus.
- As per the suggestions, more skill based courses should be incorporated into the curriculum.
- More remedial classes should be incorporated in the daily routine.

IQAC RECOMMENDATIONS:

IQAC submitted the feedback analysis report to the management. Following are some of the recommendations made:

- To encourage students' orientation towards research-based activities, it is recommended that educators offer them with a hands-on experience outside of the classroom.
- To increase students' competency in their careers, soft skill training is necessary.
- Curriculum revisions are necessary from time to time for course content.
- When designing and developing a syllabus, educators need to be fairly represented.
- As per the suggestions, more skill based courses should be incorporated into the curriculum.
- There should be more remedial instruction included in the regular schedule.
