#### • Field Study Report

An educational excursion was arranged by the Department of Economics, SBMS College, Sualkuchi on 5th of January, 2021 to Daragaon in the Baksa district of Assam. All total 32 students both boys and girls participated in the tour. The programme was systematically organized by the student of second semester of the department under the supervision of the faculty members. All the four faculty members were also present in the journey. The journey was basically started by a 35 seater ultra bus from Siliguri at 5 AM collecting students along the road. Barring the cold of January the students were assembled on time and we started the journey at 6 AM from the college campus after having all the arrangements. With their fullest energy students enjoyed a lot by dancing and singing throughout the journey and we reached Daragaon at 9 AM.

### Prion Disease

Most prion diseases are found in the central nervous system and are capable of spreading to the peripheral nervous system thus infecting meat and muscle

The abnormal prion protein infects the host animal by promoting conversion of normal cellular prion protein to the abnormal prion form.

The build-up of the abnormal protein in the brain is associated with widespread neurodegeneration.

Brain shrinkage and deterioration occurs rapidly
