Department of Education, offered the vote of thanks. After the meeting a plantation programme was organized. Principal Dr. D.C Bhagabati, Vice-Principal, Sri Dimbeswar Saikia and other faculty members planted tree saplings in the college campus.

FEW WORDS FROM THE PRINCIPAL

News Letter is a mirror which enables ones to have a glance over the dynamism of an institution. The routine activities centering around teaching learning practices are, certainly not the all to tell about an institution. Lots of activities of varied nature and diverse interest keep our campus full of dynamism, which are given proper place in the News Letter. I extend hearty thanks to the Editor and the Co-ordinator IQAC for their sincerity and dedication to publish the New Letter without break.

Principal, SBMS College

EDITORIAL

SBMS College Newsletter is an excellent way to inform our viewers and readers about the happenings which is newsworthy based on factual information. Recently we have observed World Environment Day on 5th June, 2014. By teaching our friends and families that the physical environment is fragile and indispensable, we can begin to fix the problems that threaten it. The major forms of the environmental pollution are listed along with the particular contaminant relevant to each of them are shown below-

Air Pollution:-the release of chemicals and particulates into the atmosphere. Common gaseous pollutants include carbon monoxide, sulphur monoxide, chlorofluorocarbons (CFC's) and nitrous oxides produced by industries and motor vehicles.

Soil Contamination:-occurs when chemicals are released by spill or underground leakage. Among the most significant soil contaminants are hydrocarbons, heavy metals, herbicides, pesticides and chlorinated hydrocarbons.

Water Pollution:-by the discharge of waste products and waste waters from factories and industries into surface waters; discharge of untreated domestic sewage and chemical contaminants such as chlorine, waste disposal and leaching into groundwater; eutrophication and littering.

Noise Pollution: This encompasses roadway noise, aircraft noise, industrial noise as well as high intensity sonar.

Radioactive Contamination: resulting from 20th century activities in atomic physics, such as nuclear power generation and nuclear weapons research, manufacture and deployment. Our effort to sensitise the people around us is of worthmentioning and I do hope that it will bring tangible result in the days to come.
